# **SIMPLE LUXURY**

An aerial photograph of a dry, cracked landscape, possibly a salt flat or a desert. The ground is dark and textured with numerous cracks and ridges. In the upper center, a large, dark, angular rock is positioned. A white circle is overlaid on the rock, containing the atomic number 26, the symbol Fe, the name Iron, and the atomic weight 55.845. In the lower center, another large, light-colored, angular rock is positioned. A black circle is overlaid on this rock, containing the atomic number 13, the symbol Al, the name Aluminum, and the atomic weight 26.982. The text 'HOOF Elements' is centered in the middle of the image.
